Recently Completed Projects:

Travel agency platform

US travel company | Senior Frontend Developer / Team Lead

- Built a Vue 3 and TypeScript application from scratch for travel agency employees and brought it to production.
- Defined the frontend architecture, integrated Okta authentication and connected the UI to REST APIs backed by microservices.
- Led four developers, reviewed code, gathered and reviewed requirements, and interviewed and onboarded developers.

Stack: Vue.js 3, TypeScript, Quasar, Pinia, Vite, Vitest, Storybook, Jenkins

Employee skills assessment application

Full-stack developer

- Developed frontend and backend functionality for an application that assesses and helps improve employee skills.
- Gathered and reviewed requirements and conducted code reviews.

Stack: Node.js, NestJS, TypeScript, React, Redux Toolkit, MUI, Emotion

Invoicing and debt collection platform

Danish financial company | Senior Full-stack Developer

- Built a Vue.js application from scratch and migrated the frontend from server-rendered ASP.NET to Vue.js.
- Designed and implemented frontend and .NET backend architecture, including a design system and unit testing integration.
- Maintained and supported the product, investigated issues and implemented technical solutions.

Stack JavaScript, Vue.js, C#, ASP.NET Web API, Webpack, Jest, Azure

Travel package application

US travel startup | Senior Software Developer

- Developed APIs and an administration UI for a mobile travel application combining flights, hotels and activities.
- Integrated third-party booking and flight-search APIs and connected backend services to the mobile application.
- Assessed business needs, estimated work and contributed to client and server architecture, documentation and support.

Stack C#, ASP.NET, JavaScript, React

Property management portal

US product company | Software Developer

- Integrated ACH and credit card payment providers into a property management portal, enabling users to make online payments.

Stack JavaScript, AngularJS, C#, ASP.NET Web API

Education:

Bachelor of Technology (B.Tech.), Informatics and control in technical systems | Southern Federal University, Russian Federation
